

Advancement Through Collaboration: Engineering as a Team Sport in 2025 and Beyond

Russell E. Walker, PhD
Walker Associates

DeVry Engineering Synergy Summit
27 August 2025

Collaboration, Teamwork and Synergy

Collaboration

Two or more people, entities or organizations **working together** to complete a task or achieve a goal.

Teamwork

The **collaborative effort** of a group to achieve a **common goal** or to complete a task in an effective and efficient way.

Synergy

An interaction . . . giving rise to a whole that is **greater than the simple sum of its parts**.

Great Engineering Is Done by Teams

“Great things . . . are never done by one person. They're done by a team of people.”

—Steve Jobs

Two Burning Questions

- What do synergy, collaboration and teamwork look like in modern engineering?
- How do you prepare to join the team?

Emerging Engineering Specialties 2015-2025

Specialty	Est. Hiring Growth (2023-33 annual)
AI & ML Engineering	>25%
Data Engineering	~20%
Cybersecurity Engineering	~18%
Quantum Engineering	>30% (niche)
Robotics-Automation Eng.	~15-20%
Sustainability Engineering	~12-15%
Biomedical-Bioinformatics Eng.	~10-12%
Additive Mfg. Engineering	~10%
Digital Twin-Modeling Eng.	~12%

Engineering Projects Are Increasingly Agile

Keys to agile project management:

- Fast iteration
- Embrace of change and flexibility
- Close collaboration with stakeholders
- Self-organizing cross-functional teams

% of Organizations Using Agile PM in Specific Areas

Burning Question 1: What Do Synergy, Collaboration and Teamwork Look Like?

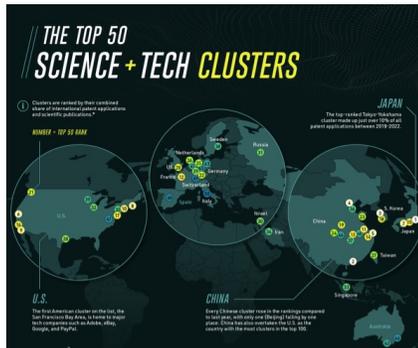

Fast, fluid, fully engaged

Spanning many engineering disciplines and business areas

Organized as agile projects

Connecting remote and hybrid workers, often globally

Leveraging new technologies: AI, AR/VR, 3D printing and more

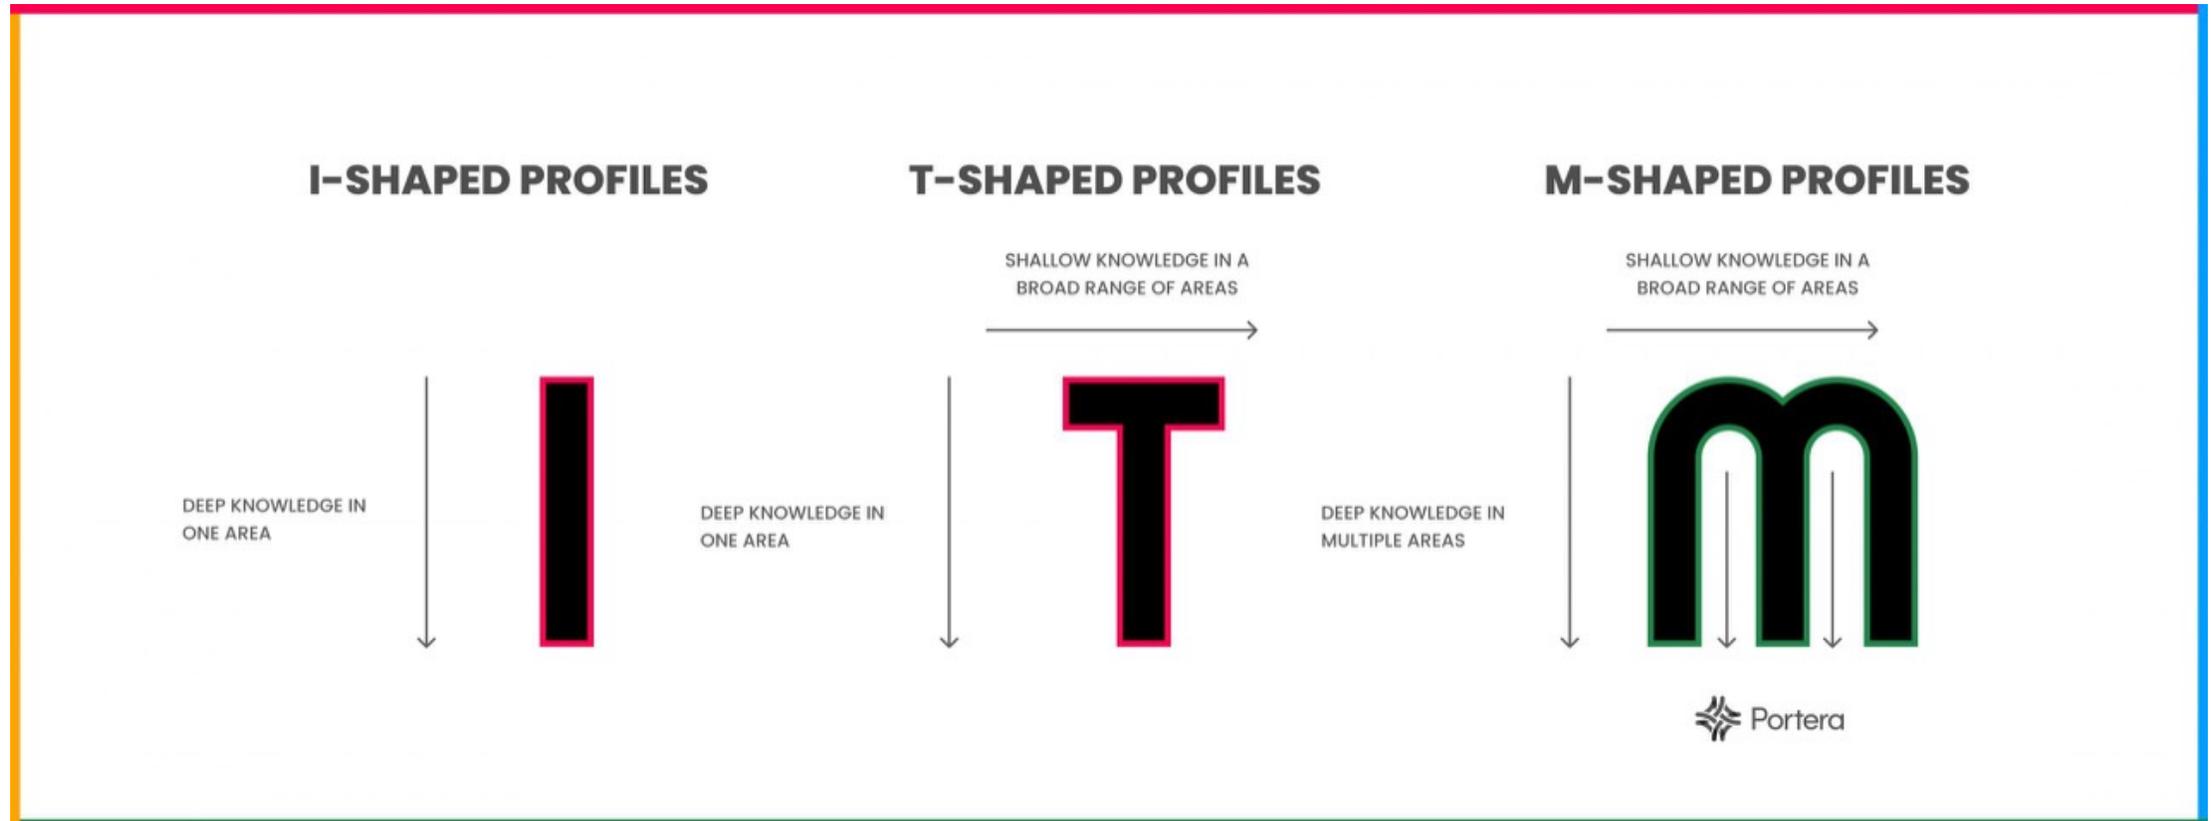

Two Burning Questions

- What do synergy, collaboration and teamwork look like in modern engineering?
- How do you prepare to join the team?

Be a Lifelong Learner

*“Learning is not compulsory;
it’s voluntary.
Improvement is not
compulsory; it’s voluntary.
But to survive, we must learn.”*

—W. Edwards Deming,
father of Total Quality
Management
